Author: Thomas Prevenslik, **International Heat Transfer Conference 15**

Manuscript ID: **IHTC15-9052. QED RADIATION – THE FOURTH MODE OF HEAT TRANSFER?**

Subject areas: **Electronic equipment cooling**

REJECTED

Region: **China** (China)

Regional Editors: **Xing Zhang**

(International Heat Transfer Conference 15)

The comment of the Regional Editor is shown in the notification mail.

13/03/2014 05:48:27	Thomas Prevenslik	Xing Zhang	IHTC Online Submission Site, from Dr. Thomas Prevenslik (Author)	<p>Text From: Dr. Thomas Prevenslik (Author) E-mail: nanoqed@gmail.com</p> <p>Journal: International Heat Transfer Conference 15 Article: IHTC15-9052. QED RADIATION – THE FOURTH MODE OF HEAT TRANSFER?</p> <p>Prof. Zhang:</p> <p>Obviously, the near-field radiation community does not want to understand that EM radiation may be non-thermal and not temperature dependent as in the Stefan-Boltzmann relation. But my manuscript clearly stated QED radiation is non-thermal. What this means is you as ISC editor who interpreted QED induced EM radiation as thermal radiation have a problem in understanding plain English.</p> <p>Moreover, the near-field radiation community oblivious to quantum mechanics has been following the false classical physics originated by Prof.Tien for some time. Because of this, the community effort in following false physics is meaningless and may be</p>

				<p>likened to children playing in the sand. In this regard, the opinions of the near-field radiation community are meaningless and certainly should not be quoted as the basis for rejecting my manuscript.</p> <p>Thomas Prevenslik</p> <p>PS: I have no problem with the rejection of my manuscript, but not for false reasons.</p>	
12/03/2014 23:04:07	Xing Zhang	Thomas Prevenslik	Article IHTC15-9052. The status has been changed from 'REPORTED' to 'REJECTED'	<p>Text Dear Author - Thomas Prevenslik.</p> <p>The status for article IHTC15-9052 "QED RADIATION – THE FOURTH MODE OF HEAT TRANSFER?" in conference "International Heat Transfer Conference 15" has changed: from REPORTED (Regional ISC Editor - Xing Zhang) to REJECTED (Author - Thomas Prevenslik) The status change of the article requires your attention.</p> <p>Please login http://submission.ihtcdigitallibrary.com/usr/login.html</p> <p>Notes from Regional ISC Editor - Xing Zhang:</p>
